## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

### DETAILED ACTION

This Office action is in response to the amendment filed October 25, 2005 in which claims 97-98 were added.

#### ***Double Patenting***

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 90-92, 95, 97 and 98 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 107-109 and 112-114 of copending Application No. 10084236. Although the conflicting claims are not identical, they are not patentably distinct from each other because the intended used is not a patentable distinction especially in view of the compositions being the same or an obvious variant.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Art Unit: 1714

3. Claims 90-92, 95, 97 and 98 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 87, 90, 91, 94, 95 and 97-99 of copending Application No. 10084237. Although the conflicting claims are not identical, they are not patentably distinct from each other because the intended used is not a patentable distinction especially in view of the compositions being the same or an obvious variant.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

4. Claims 90-92, 95, 97 and 98 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 97-103 of copending Application No. 10084831. Although the conflicting claims are not identical, they are not patentably distinct from each other because the intended used is not a patentable distinction especially in view of the compositions being the same or an obvious variant.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

5. Claims 90-92, 95, 97 and 98 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 95-97 and 101-103 of copending Application No. 10084579. Although the conflicting claims are not identical, they are not patentably distinct from each other because the intended used is not a patentable distinction especially in view of the compositions being the same or an obvious variant.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

***Claim Rejections - 35 USC § 112***

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

7. Claims 56, 63, 66, 70, 73, 74, 80 and their dependents are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 56, 66 and 74 are rejected because the claims are directed to a fuel and an additive, therefore the claims should read – A gasoline composition --.

Claim 63 is rejected because it is not clear why a gasoline composition would required gasoline as a solvent. Clarification is required. Also, is "2 cycle oil and resid" a mixture of these two components or should the first occurrence of "and" be deleted.

Claim 70 is rejected because it is not clear why a gasoline composition would required gasoline as a solvent.

In claim 73, the comma should be deleted and replaced with the term – and --.

Claim 80 is rejected because it is not clear why a gasoline composition would required gasoline as a solvent.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Cephia D. Toomer whose telephone number is 571-272-1126. The examiner can normally be reached on Monday-Thursday.
